
Greetings from Dagar Industrial Solutions!

We, hereby feel pleasure to introduce ourselves as leading Service provider for Electro-Mechanical System in India. The Company was established in 2013 as Electro-Mechanical Contractors & Engineers, initially with an aim for executing contracts in the field of Internal / External electrification including Sub-Station, DG sets and Distribution Systems, Earthing Solutions with All kind of Fabrication (SS, MS), fittings, machine installation & modification.

Having vast experience gained over the decades, we have carried out many small projects, Public & Private Sector Undertakings, which have been completed timely and to the entire satisfaction of our clients.

We are a professionally and systematically managed company, backed up by technically qualified and dedicated Engineers / highly skilled workmen. We train our team members on a continuous basis; in order to abreast them with the latest market trends/ technological improvements and upgrade their skills through discussions, journals, articles, etc.

Company Vision

Dagar Industrial Solutions is committed to being the industry's most trusted and relied-upon partner, providing best-in-class products and services, exceptional expertise and a passion for quality and customer satisfaction.

Company Mission

To develop the optimal automation solutions and to add value to customer business.

To deliver business benefits to companies through technology expertise.

To achieve maximum customer satisfaction over the entire life cycle of our customer solution via our excellence of products and solutions.

Develop long-term partnerships with our customers and suppliers.

Continuously improve our best practices to maximize environmental, social and economic sustainability.

We are working in following fields:

Manufacturing: -

1) Low Tension Panels - All type of electrical panels.

- Motor Control Center Panels (MCC Panels)
 - Power Control Center Panels (PCC Panels)
 - Control Desks for Various Applications
 - Power Factor Improvement Panels (Capacitor Panels)
 - Main L T Panels
 - Power & Lighting Distribution Boards
 - D G Synchronization Panels
 - PLC Panels
 - Auto Mains Failure Panels (AMF Panel)
 - Feeder Pillar Panels
 - Control & Relay Panels.
- 

2) Steel Fabrication - All type of Fabrication job in house & outside at work shop

- MS Structure (As per company design Drawing & Guideline)
- SS Structure (As per company design Drawing & Guideline)
- Machine parts and tools design
- Trolley Fabrication and supply
- Gate, structure design and fabricate as per requirement

Services Job: -

01) Electrical Service

- LT & HT Panels – Servicing of all type electrical panels. (MCC Panels, PCC Panels, Control Desks, Power Factor Panel, Main L T Panels, Power & Lighting Distribution Boards, D G Synchronization Panels, PLC Panels, AMF Panels, Feeder Pillar Panels, Control & Relay Panels & HT VCB Panels etc.).
- Switch Gear Service- Air Circuit Breaker, Vacuum Circuit Breaker, SF 6 Breaker, Transformer & OLTC
- Retrofitting Jobs- ACB, Meters, Protection Relays, Control relays (AMF, MDC, APFC etc.), Panel automation.
- Testing & Calibration- Protection relays, Meters, Releases, Transformers etc.
- Automation- LT Panel Interlocking (Transformer, Bus Coupler & Generator), Interlocking between outgoing feeders & Starters, Water level controller.
- Electrical Panel Commissioning- Commissioning of all type electrical panel (Main LT Panel, Capacitor panel, Synchronizing panel, PCC & MCC Panel, AMF Panel, PLC Panel etc.) & HT Panel.
- AMC & One Time Service- Annual & Onetime maintenance contracts of electrical panel (Main LT Panel, Capacitor panel, Synchronizing panel, PCC & MCC Panel, AMF Panel etc.), Transformer dehydration.
- Installation- All type of LT & HT panel, Transformer with OLTC, GO & DO switches.
- Consultancy- Designing of complete electrical system & Panel- (Electrical Panel, Cable size, Capacitor bank, Fault Calculation, Load calculation etc.) for new Plant/Building.

02) Mechanical Service

- Structure and sheeting work
- Ducting work; - MS ducting, GI duct, SS duct, Aluminum duct, fiber duct
- Firefighting system
- Pipe line work: - MS pipe line, GI pipe line, SS pipe line, seamless pipe line. GAS pipe line, petrochemical pipe line (Diesel, LDO, petrol)
- Gas supply station
- Petrochemical supply station
- Storage tanks, silos design and development
- Design and development Industrial goods handling trolleys.
- Boundary wall fencings.
- Chimney fabricate and fixing up to 30 mtr.
- Pallets and racks for storage of industrial goods.
- Industrial gates and their automation.
- Ceramics machinery design and development.
- Casting section design and development for ceramics industries.

- Weight lifting arrangement for paint shop and ceramics casting section.
- Machine design and development as per requirement.

Projects Jobs: -

- Laying- Laying of LT & HT Cables, Cable tray, Hume pipe, Race Way, Power & normal points, Street & Industrial lighting, Cable trench, building wiring (PVC & MS Conducting, wiring).
- Installation- LT & HT panel, Transformer, GO & DO Switches, Electrical Earthing (Normal & Chemical), Street & Industrial lighting.
- New plant/Project fabrication fittings and installation at sight.
- Design and development of new project pipe line work like Gas, Petrochemical, Compressed air, oxygen, nitrogen, RO water.

Our Service used in various Industries

Steel Industries, Chemical Industries, Garment Industries, Milk Et Dairy product industries, Copper wire at Steel manufacturer industry, Consumer electronics, Forging industry, Hospital, Group housing society, Power station, Mall a Town ship, Leather Industry, Ceramic Industry, Automobile

List of Major Tools & Tackles: -

• NC Shearing Machine. • NC Bending Machine. • Hydraulic Punching Machine. • Wagner Make Spray Gun. • Furnace for Bus Bar sleeves. • Pedestal drill machine & Hand drill machine with single phase motor. • Cutting pliers, Nose pliers. • Hand grinding machine with single phase motor. • Ring & De-spanners complete set. • Slide wrenches. • Screw driver sets voltage tester for each skilled engineer. • Air blower, Hack saw, Files & Chisels & Fine grinder/ Buffing machine • Digital Megar, digital multi meter. • Advances relay testing kit. • High Voltage Tester for 15 KV. • Primary current injection 500 Amp. • Contact resistance kit. • Earth leakage & Earth tester. • Milled volt drop tester. • Crimping machine with 400 mm die. • Laser temperature gun. • Argon/ARC Welding, Gas welding •Cutting Machine, Grinding Machine • Lath & Shaper machine • Tool room equipment

List of Manpower

- 1. Sudhir Kumar Yadav Proprietor & Head Finance B. Tech, MBA, (09 Yrs Experience)
- 2. Mahesh Yadav General Manager B.Tech. Electrical (12 Yrs. Exp.)

• 3.	D K Sharma	Business Partner	B. Tech Mechanical (13 Yrs. Exp.)
• 4.	Narinder Kumar	Sr. Engineer	B.Tech. Electrical (10 Yrs. Exp.)
• 5.	Manish Singh	Site Engineer	Diploma Mechanical (05 Yrs. Exp.)
• 6.	Amit Kumar	Site Engineer	Diploma Electrical (05 Yrs. Exp.)
• 7.	Gulshan Kumar	Site Engineer	Diploma Instrument (04 Yrs. Exp.)
• 8.	Rajeev Singh	Site Engineer	ITI (06 Yrs. Exp.)
• 9.	Sanjeev Sharma	Skilled Engineer	ITI (08 Yrs. Exp.)

General Information: -

- PAN No- ABRPY3403D
- GSTIN – 08ABRPY3403D1ZH
- ESI no- 15/16669
- PF no- RJ14/19838

We trust that you will find above details in order with your requirement. We shall be pleased to associate ourselves with your esteemed organization. In case you have any clarification, we shall be most happy to provide the same.

Thanking you and assuring our Best Services Always,

Thanks & Regards,

Sudhir Kumar Yadav

(Proprietor & Head Finance)
